Mathematics · Grade 2

Add using drawings

Add two-digit numbers using a drawing.

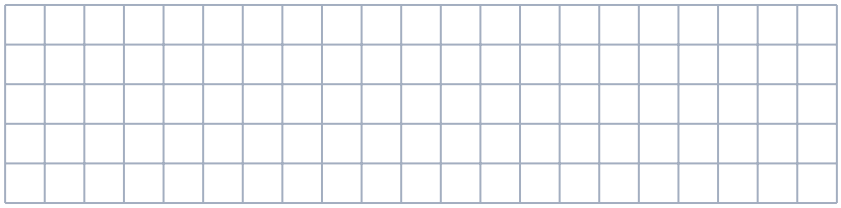

Name _____ Date _____

Worked example

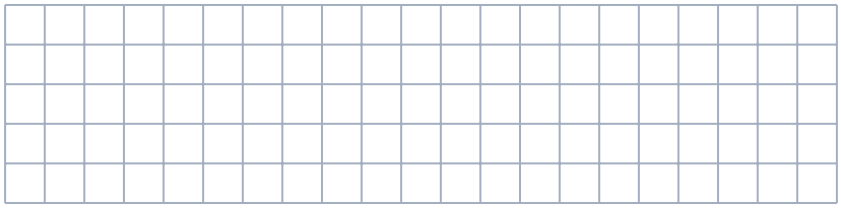

23 + 14: draw 2 tens and 3 ones, then 1 ten and 4 ones. Altogether, 3 tens and 7 ones make 37.

Your turn

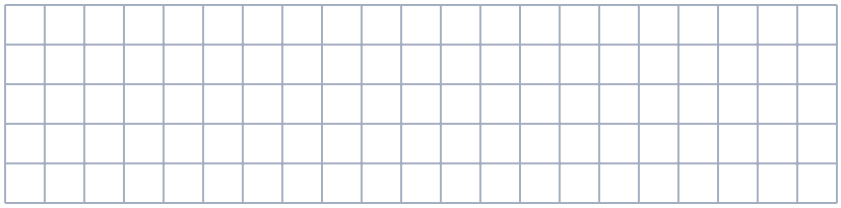

1. Draw the tens and ones in 21, then in 12. Put the groups together and write the total.

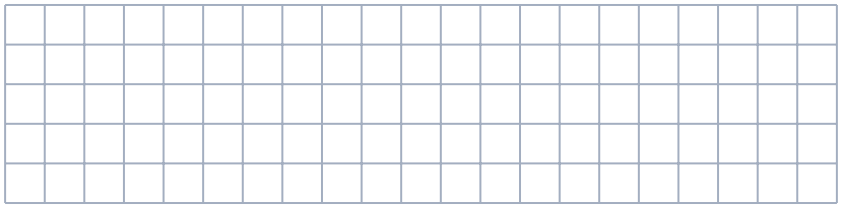

2. Draw the tens and ones in 32, then in 16. Put the groups together and write the total.

3. Draw the tens and ones in 45, then in 14. Put the groups together and write the total.

4. Draw the tens and ones in 24, then in 35. Put the groups together and write the total.
