Mathematics · Grade 2

Measure with repeated units

Measure a length without gaps or overlaps.

Name _____ Date _____

Worked example

Four counters of equal size, lined up end to end, can measure a strip 4 counters long.

Your turn

1. Count the units: ▪ ▪ ▪.

2. Count the units: ▪ ▪ ▪ ▪ ▪.

3. Count the units: ▪ ▪ ▪ ▪ ▪ ▪.

4. Count the units: ▪ ▪ ▪ ▪ ▪ ▪ ▪ ▪.

5. One strip is 7 cubes long and another is 4 cubes long. Which is longer?

6. Draw 5 equal squares end to end.

Mathematics · Grade 2

Measure with repeated units

Worked example

Four counters of equal size, lined up end to end, can measure a strip 4 counters long.

Your turn

7. Why should there be no gaps between the cubes?

8. Draw a strip of 6 squares and a strip of 4 squares. Use squares of the same size. How many more squares are in the longer strip?
