Mathematics · Grade 2

Subtract using drawings

Draw tens and ones to take away an amount.

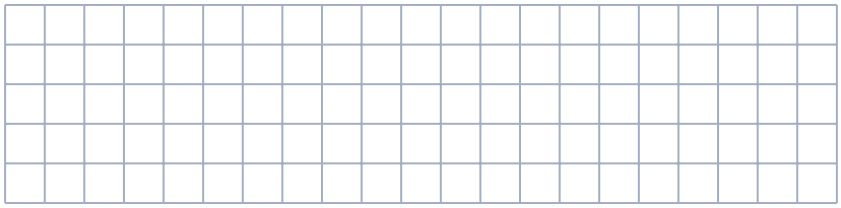

Name _____ Date _____

Worked example

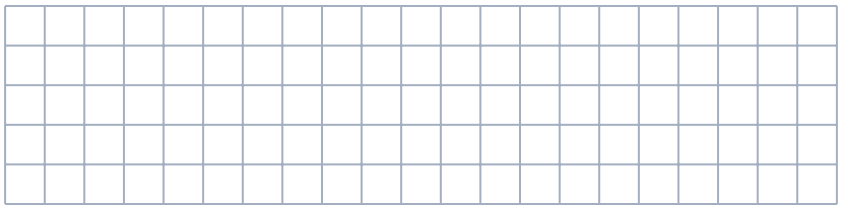

36 - 12: draw 3 rods of 10 and 6 dots. Cross out 1 rod and 2 dots. There are 24 left.

Your turn

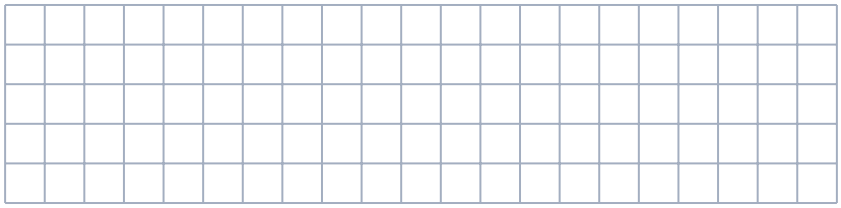

1. Draw the tens and ones in 24. In your drawing, cross out the tens and ones that make 12. Write the number left.

2. Draw the tens and ones in 35. In your drawing, cross out the tens and ones that make 14. Write the number left.

3. Draw the tens and ones in 46. In your drawing, cross out the tens and ones that make 21. Write the number left.
