Mathematics · Grade 3

Column addition with regrouping

Worked example

37 + 25: 7 + 5 = 12 ones. Write 2 ones and carry 1 ten. 3 + 2 + 1 = 6 tens, so 62.

Answers

1. For 46 + 27, add the ones first. How many ones before regrouping?

13

2. Make a ten with 10 of the 15 ones. Write how many tens you have and how many ones are left.

1 ten and 5 ones

3. 24 + 37 = ____

61

4. 48 + 23 = ____

71

5. 52 + 16 = ____

68

6. 36 + 49 = ____

85

7. There are 38 French books and 24 English books. How many altogether? Show your work.

38 + 24 = 62

8. Noah writes 58 for 28 + 36. Check by writing the addition in columns.

28 + 36 = 64. 8 + 6 = 14.
