Mathematics · Grade 3

Share equally

Worked example

12 counters shared among 3 students: 4 each, because 3 × 4 = 12.

Answers

1. 8 ÷ 2 = ____

4

2. 15 ÷ 3 = ____

5

3. 20 ÷ 4 = ____

5

4. 18 ÷ 3 = ____

6

5. 24 ÷ 6 = ____

4

6. 21 ÷ 3 = ____

7

7. Share 16 pencils equally among 4 students. Draw the groups.

4 pencils per student.

8. 24 cards are shared among 4 friends. Write a multiplication to check the sharing.

4 × 6 = 24
