Science and technology · Grade 1

# Observe today's weather

## Read or look closely

If flakes are falling, it is snowing. A puddle can stay after the rain has stopped.

## Answers

**1.** Drops fall from clouds. What is happening?

It is raining.

**2.** Clouds cover the sky. Does that prove it is raining?

No.

**3.** What falls when it snows?

Snowflakes.

**4.** Look outside. Draw the sky. If anything is falling from the sky, draw what you see, such as raindrops or snowflakes.

The answer matches the observation.

**5.** Imagine it is raining. Draw a small symbol to record rain on a weather calendar.

Example: a cloud and drops.
