Science and technology · Grade 1

Observe today's weather

Describe the sky and precipitation from clues you can see.

Explore the topic with an adult if you need help.

Name _____ Date _____

Read or look closely

If flakes are falling, it is snowing. A puddle can stay after the rain has stopped.

Your turn

1. Drops fall from clouds. What is happening?

2. Clouds cover the sky. Does that prove it is raining?

3. What falls when it snows?

4. Look outside. Draw the sky. If anything is falling from the sky, draw what you see, such as raindrops or snowflakes.

5. Imagine it is raining. Draw a small symbol to record rain on a weather calendar.
