Science and technology · Grade 1

Observe with your senses

Read or look closely

A bell rings. I use hearing to describe its sound. Observe familiar objects without tasting them.

Answers

1. Which sense lets you hear a drum?

Hearing.

2. Which sense lets you see a pencil's colour?

Sight.

3. Which body part helps you smell an orange?

Your nose.

4. A rock can be smooth or rough. Which sense helps you check?

Touch.

5. Choose an object you can observe safely, such as a pencil. Draw it. Say one thing you can see or feel by touching it.

Example: I see a red pencil.
