Science and technology · Grade 1

Recognize living things

Read or look closely

A bean plant grows. A toy shaped like a plant does not grow.

Answers

1. Is a cat a living thing?

Yes.

2. Does a plastic chair grow like a plant?

No.

3. Which clue shows a caterpillar is alive? It grows or it is plastic?

It grows.

4. A battery-powered toy can move. Is that enough to say it is alive?

No. Movement alone is not enough.

5. Draw and label a living thing and a manufactured object.

Example: a tree and a ball.
