Science and technology · Grade 2

Push and pull

Read or look closely

When you move a block away with your hand, you push it. When you move it toward you with a string, you pull it.

Answers

1. You use your hand to move a basket away from you. Do you push it or pull it?

Pushing.

2. You bring a sled toward you by its rope. Are you pushing or pulling?

Pulling.

3. Draw a hand pushing a block. Draw an arrow to show which way the block moves away from the hand.

The arrow points away from the hand.

4. To close a drawer, do you push it toward the cabinet or pull it toward you?

Push it toward the cabinet.

5. Give an example of pulling something at home.

Example: pull a drawer open.
