Science and technology · Grade 2

What a plant needs

Match plant care to what the plant needs.

Explore the topic with an adult if you need help.

Name _____ Date _____

Read or look closely

To help a plant grow, we give it water and light. Individual plants have different needs.

Your turn

1. What do you give the plant when you water it?

2. Which place usually has more light, by a window or in a closed cupboard?

3. What did it probably get too little of in the cupboard?

4. Draw a place for a plant that needs light.

5. You put one plant by a window and one in a dark corner. To compare the effect of light, name one thing to keep the same for both plants.
