Social studies · Grade 3

Where to build a village?

Connect features of the land to the needs of an Iroquoian village around 1500.

Name _____ Date _____

Read or look closely

Imagine two sites. Site A is near water and has soil that is easy to farm. Site B is far from water and has very rocky soil. The village needs water and a place to grow crops.

Your turn

1. Which site is near water?

2. Which site has very rocky soil?

3. Which site would you choose? Give two reasons from the text.

4. Draw the site you chose. Label where the water and crops would be.
