Work in Québec around 1905

Read or look closely

In the countryside, a family grows grain and raises animals. In a city, workers make cloth in a factory. The two places produce different goods.

Answers

1. What does the factory produce?

Cloth.

2. Name one thing the family does in the countryside.

Grow grain or raise animals.

3. Where is the factory in the text?

In a city.

4. Compare the two workplaces in one or two sentences. Name one good made in each.

The farm grows grain, among other things. The factory makes cloth.
